When I tried to open the software, it showed me an application error multiple time.

Bug Report Date:17/04/22

Has the bug been fixed? YES

Date of Bug fixing: 20/04/22

Any other comment (for example, how satisfied are you with the bug fixing):

BUG 2: Buyer portal erroneously changes to seller portal while reloading.

Tested Feature:

Tester Name: kartavya

Testing Date: 15/04/22

Bug Details:
At one time only one type of user can be logged in. logging in another user in a different window logs out the previous user.

Bug Report Date:17/04/22

Has the bug been fixed? NO

Date of Bug fixing:

Any other comment (for example, how satisfied are you with the bug fixing):

3 Overall Quality of the Software

<Mention how satisfied you are with the software.

Do you think that the software lacks some major features that may make it lees acceptable to the user?

Does the software not satisfy any major non-functional requirements?>

Apart from the reported bugs, we found the software very useful and couldn't point out any major feature requirement to be lacking. We found the software a little slow to load and thought the UI could be improved. Our suggestion of UI improvement was taken seriously.

Appendix A - Group Log

<*Please include here all the minutes from your group meetings, your group activities, and any other relevant information that will assist in determining the effort put forth to produce this document*>

Kartavya reported the bugs and wrote the document. There was some informal communication between group members about the bugs that were going to be reported but didn't have any formal meeting as such.
